PROFESSIONAL SUMMARY

Motivated B.Tech student specializing in Artificial Intelligence and Machine Learning at Sai University, Chennai, with hands-on experience in Python, C, data analysis, machine learning, web development, Power BI, REST APIs, Web scraping and workflow automation using n8n. Skilled in developing AI-powered chatbots, resume-to-job matching systems, interactive dashboards, responsive web applications, and automation workflows. Familiar with NLP techniques such as TF-IDF, cosine similarity, and classification models using scikit-learn. Passionate about solving real-world problems through data-driven, scalable, and user-focused technology solutions. Seeking internship opportunities in AI/ML, data science, software engineering.

PROFESSIONAL EXPERIENCE

AI/ML & Data Science — Student Projects *2025 – Present*

Independent Projects, Chennai, Tamilnadu, India

- Developed SmartHire, a resume-to-job matching system using Python, scikit-learn, TF-IDF, and cosine similarity to recommend relevant jobs and identify skill gaps.
- Built AI chatbot and appointment-booking workflows using n8n, REST APIs, and webhooks to automate responses and scheduling tasks.
- Developed responsive websites using HTML, CSS, and JavaScript, emphasizing usability and mobile-friendly layouts.
- Created interactive Power BI dashboards to visualize trends, track key metrics, and communicate insights from structured datasets.

EDUCATION

Bachelor of Technology (B.Tech) in AIML & Data science *Aug 2025 – Present*

Sai University, Chennai · Winner — Summer School Mantra Project Competition: Developed LearnMetrics, a learning analytics website. · GPA: 9.25

· SmartHire — Resume Matching & Career Guidance Developed a resume-to-job matching and career guidance application using Python, scikit-learn, TF-IDF, and NLP to compare resumes with job descriptions and identify relevant opportunities. *Jul 2026 – Sep 2026*

SKILLS & COMPETENCIES

Technical: Python, C, JavaScript, HTML5, CSS, Machine Learning, Pandas, NumPy, Matplotlib, Seaborn, Power BI, n8n, REST APIs, web scraping, Git, GitHub, Streamlit, Data Structures & Algorithms, Jupyter Notebook & Google Colab, Critical Thinking

Soft Skills: Critical Thinking, Problem-solving, Analytical Thinking,Teamwork,Time Management ,

Languages: Telugu, English

PROJECTS

SmartHire — Resume Matching & Career Guidance *Python, scikit-learn, NLP, TF-IDF*

https://https://github.com/indratumu296-web/smart__hire-.git

PROBLEM: Job seekers often struggle to identify opportunities that match their skills and qualifications. Manually comparing resumes with multiple job descriptions is time-consuming and makes it difficult to assess suitability. SOLUTION: SmartHire analyzes uploaded resumes using NLP and compares them with job descriptions using TF-IDF and scikit-learn. It generates relevance scores to help users identify suitable opportunities and provides career guidance based on their skills and qualifications.

LearnMetrics — Educational Website *Css, Java Script, HTML5, Power bi, n8n,api keys*

https://https://github.com/indratumu296-web/learnmetrics-ai-hub-63ab29ef.git

PROBLEM: Students need accessible digital tools to support their learning and academic goals.SOLUTION: Developed LearnMetrics, an educational website designed to support student learning. The project won the Summer School Mantra Project Competition

Indra Hospital — Responsive Healthcare Website *HTML5, CSS3, Java Script, chat bot*

https://https://github.com/indratumu296-web/health-care-website.git

PROBLEM: Patients need an accessible way to find hospital services, facilities, and contact details online, with clear navigation across different devices. SOLUTION : Built Indra Hospital, a responsive six-page healthcare website using HTML5 and CSS3. Organized hospital information through sidebar navigation, designed layouts for mobile, tablet, and desktop, and created an appointment request form interface. Added SEO-friendly meta tags across pages.

HONOURS & ACHIEVEMENTS

- Generative AI and Responsible AI — MANTRA Summer School, Sai University, 2026
- N8N and Agentic AI — MANTRA Summer School, Sai University, 2026
- Data Analytics and Power BI — MANTRA Summer School, Sai University, 2026
- Modern Web Development — MANTRA Summer School, Sai University, 2026
- Data Visualization and Business Intelligence using Power BI — Sai University, 2026
- Modern Web Development: Responsive Design, API, Chatbot, Google Maps Integration, SEO/AEO Strategies — Sai University, 2026
